

Generic of Good Girl by Carolina Herrera
Fine Fragrance Collection Ltd.

54811

Passed

This document addresses the requirements of EU Regulation (EC) No. 1223/2009 Article 10 in accordance with Annex I and is a statement on the safety of the cosmetic product taking into account the intended use of the cosmetic product and the anticipated systemic exposure to individual ingredients in the final formulation.

Product name Generic of Good Girl by Carolina Herrera

Product Code MC579 FFCL-30-MCP

Company (Customer) Name Fine Fragrance Collection Ltd.

Company (Customer) Address 1st Floor, 124 Cleveland Street, London, W1T 6PH, United Kingdom

Company (Customer) Phone -

Company (Customer) Fax -

Company (Customer) Responsible Contact Head Office

Other Contact Details

ADSL Reference 54811

CPSR Passed Date 16-04-2024 11:30:34

The product is safe for use in the stated application, and complies with EC Regulation 1223/2009. This assessment is conditional on the Responsible Person complying with the conditions in the notes and any other purity restrictions listed.

Physical/Chemical Characteristics & Stability of the Cosmetic Product

Physical Description of the Product	Liquid
Aroma	AS STANDARD
Colour	AS STANDARD
Taste	N/A
pH of Product	N/A
Viscosity	N/A
Specific Gravity	0.844 - 0.864g/ml
Stability	The product has passed a 4 week stability test. Test report attached.

INCI	Physical Description	Chemical Description
ALCOHOL DENAT.	Colourless liquid with a characteristic odour.	Molecular formula: C ₂ H ₆ O Molar mass: 46.07 g mol ⁻¹ Density: 0.789 g/cm ³ Melting point: -114 °C, 159 K, -173 °F Boiling point: 78.37 °C, 352 K, 173 °F log P: -0.18 includes denaturant such as methanol, isopropyl alcohol, acetone, methyl ethyl ketone, methyl isobutyl ketone, and denatonium.
PARFUM	-	-

Microbiological Quality

Preservative Efficacy	This product is hydroalcoholic and inherently hostile to the growth of micro-organisms. Microbial challenge testing is not required.
Plate Count	

Impurities, Traces & Packaging

Description of the Packaging & Suitability for Use	All materials are suitable for the application and comply with Cosmetic Regulations 1223/2009.
Notes of Impurities,Traces in the INCI	No impurities of concern were identified in the raw material data supplied.

Normal & Reasonably Foreseeable Use

Description of Intended Application & Directions for Use	EDP - to be applied to the wrists and neck.
---	---

Exposure to the Cosmetic Product

Site of Application Wrist & Neck
Surface Area of Application (cm²) 200
Amount Applied (g) per day 0.72g
Duration Leave-on
Frequency 1/day
Retention Factor 1
Exposure Routes Dermal (incidental ocular and oral)
Target Population Adult 60kg
Calculated relative daily exposure (mg/kg bw/day) 12.0

Typical consumer use of the product is taken from the SCCS's Notes of Guidance and the EPA Exposure Factors Handbook

Exposure to the Substances

INCI	Calculated Relative Daily Exposure	Concentration % (w/w)	Dermal Absorption	Systemic Exposure Dosage
ALCOHOL DENAT.	12.0	65.0%	100.0%	7.800000
PARFUM	12.0	35.0%	100.0%	4.200000

Exposure data and method of calculation taken from the SCCS's Notes of Guidance. The conventional conservative approach of assuming a dermal absorption of 100% is taken where appropriate

General Safety Comments

INCI	General Safety Comments	Data Reference
ALCOHOL DENAT.	<p>Alcohol, also called ethanol or ethyl alcohol, is formed by the fermentation of sugars or can be synthetically produced. It is a 2-carbon alcohol. Alcohol denat. is alcohol which has been made unpotable by a variety of substances. It is used in cosmetics and personal care products primarily to conform to import, tax, and duty requirements. Alcohol is readily absorbed by the oral and inhalation routes and subsequently, metabolized and excreted in humans. At exposures relevant to consumer exposure during use of alcohol containing products, the alcohol dehydrogenase metabolic route in the liver dominates and does not become saturated. Alcohol is not accumulated in the body. Dermal uptake of alcohol is very low. Alcohol has a low order of acute toxicity by all routes of exposure. Alcohol is widely used in topical applications and adverse effects are seldom reported. The Cosmetic Ingredient Review Expert Panel investigated a variety of the most frequently used denaturants. They determined that at the low concentrations at which they were present Alcohol Denat. denatured with t-Butyl Alcohol, Diethyl Phthalate, Methyl Alcohol, Salicylic Acid, Sodium Salicylate, and Methyl Salicylate is safe as used in cosmetic formulations with no qualifications. The available data, however, were not sufficient to support the safety of Quassin, Brucine, and Brucine Sulfate, Alcohol Denat. denatured with those denaturants, or SD Alcohol 39 and SD Alcohol 40. It is considered safe at its current use and concentration.</p>	<p>"Safety evaluation of topical applications of ethanol on the skin and inside the oral cavity", Dirk W Lachenmeier , Journal of Occupational Medicine and Toxicology 2008, 3:26 doi:10.1186/1745-6673-3-26 "OECD SIDS ETHANOL", SIDS Initial Assessment Report For SIAM 19, Berlin, Germany, 19 – 22 October 2004 "Final report of the safety assessment of Alcohol Denat., including SD Alcohol 3-A, SD Alcohol 30, SD Alcohol 39, SD Alcohol 39-B, SD Alcohol 39-C, SD Alcohol 40, SD Alcohol 40-B, and SD Alcohol 40-C, and the denaturants, Quassin, Brucine Sulfate/Brucine, and Denatonium Benzoate.", Cosmetic Ingredient Review Expert Panel, Int J Toxicol. 2008;27 Suppl 1:1-43. Absorption of Alcohol Hand Disinfectants, Prof. Axel Kramer, Institute of Hygiene and Environmental Medicine, University Hospital, Greifswald, Germany ECHA dossier for Ethanol</p>
PARFUM	The safety of perfumes and fragrances is assessed via a valid IFRA Certificate	-

Undesirable Effects & Serious Undesirable Effects

None reported.

Information on the Cosmetic Product

The product has been assessed and found to be compliant with the relevant regulations and standards required by:

EUROPEAN UNION: Regulation 1223/2009

UNITED KINGDOM: Regulation (EC) No 1223/2009 on Cosmetic Products, as amended by the Product Safety and Metrology etc. (Amendment etc.) (EU Exit) Regulations 2019

PART B

Assessment conclusion

The evaluation of the data available on the product and the information about the ingredients for the claimed use do not indicate a significant risk to users that outweighs any benefits of use. The clinical data indicate very low incidence of adverse events

The product is safe for use in the stated application, and complies with EC Regulation 1223/2009. This assessment is conditional on the

Responsible Person complying with the conditions in the notes and any other purity restrictions listed.

Labelled warnings and instructions of use

None

Reasoning

The toxicological data given in Part A section 8 indicate that the ingredients are safe for their intended use. In general, the final product would not be considered an irritant or potential skin sensitiser if the total concentration of irritant ingredients is less than 10% and the total concentration of skin sensitisers is less than 1%. These levels are not exceeded in the product. The product does not contain any known photosensitising ingredients.

Assessor's credentials and approval of part B

Mark Richard Bowes-Cavanagh BSc (Hons) App. Chem CSci CChem MRSC Address: Green Pastures, Totnes Road, Collaton St. Mary, Paignton, Devon, U.K

Further
Education

1991 - 1994 University Of Plymouth. Drake Circus, Plymouth. 2nd Class BSc (HONS) - Degree in Applied Chemistry.

Specially
Qualified In

Qualitative & quantitative analysis of Material, Bio-organic, Analytical, Environmental, Physical, Organic and Inorganic chemistry. Close liaison with industrial processes and particular attention was given on GLP and all inferences recorded. Synthetic work and analysis using FTIR, IP, GC-MS, GC, HPLC, H-NMR, ICP--MS and bioassay preparations. Final year dissertation entitled "Isothiocyanates of the Larval Cabbage Root Fly (*D.Radicum*) Attractants"

2000 - Present Advanced Development & Safety Laboratories Ltd Paignton, Devon. TQ4 7PW

Technical Director

Analysis and Signing-Off of Safety Assessments in accordance to Cosmetics Directives, EU, ASEAN, Canada and FDA and to 2013 regulations.

Presentation of new products or raw materials to customers including point of sale, including new actives from In-Cosmetics and other trade shows.

Negotiation of price points and order details with both internal departments and customers through procurement or sales.

Research & Development of new products, including sourcing of new ingredients, componentry and fragrance.

Sourcing of all packaging connected to new products, enabling product to arrive on time at third party manufacturers.

Management of bank accounts and supplier credit accounts.

Legal paperwork to enable smooth transfer of product to Far East and FDA in USA through their internal governing bodies.

Creation of website and update including ePDQ selling facility.

Collation of orders with manufacturers including Quality Control and adherence to specifications.

Organizing Trade Shows including NEC Fairs, Regional shows and Oversea Trade shows e.g. Hong Kong Beauty Show.

Consultancy with manufacturers to establish new ranges for both them and feasibility to be successful on the market.

Preparation of stability testing on all products including product compatibility.

Strategy planning for both ECL and with consultancy to clients on better systems within their organizations including training.

1999 - 2000 The Bodyline Group Plc, Paignton, Devon. TQ4 7QZ.

To keep abreast of new technology with a view to:

- introduction into existing products
- introduction into new products
- use in innovation presentations
- use in technical bulletins

Ensure that products developed by R&D are:

- Market focused
- Legal (according to claim and composition)
- Safe to use
- Stable (will not separate, discolour etc.)
- Can be manufactured consistently to specification

Assess external testing product development requirements. Ensure testing is focused, best value and accurately costed.

To liaise with customers in order to provide them with required levels of technical support, backed by the supply of all data, samples and specifications.

To liaise with outside suppliers in order to:

- find new sources of innovation
- find equivalent raw materials at competitive costs
- tested externally, where internal facilities are inadequate for the purpose
- at minimum cost

Assist as necessary in the development of the R&D budget.

Ensure R&D spending is in line with agreed budgets and that external testing is properly targeted.

Undertake succession planning within the department and ensure that sufficient developmental training takes place.

To reduce failure rate in process through managing pilot production programme and troubleshooting bulk production issues.

Career
History

The management, leadership, performance management, development, recruitment and training of all staff within the function to ensure that department performance and customer service are optimised.

Technical Manager

1999 - 2000 The Bodyline Group Plc, Paignton, Devon. TQ4 7QZ

Direct involvement with sales in initiating new projects and servicing the account.

Upgrading the company's capabilities in order to achieve ISO 9001 by March 2000.

Appearance on The Shopping Channel to promote Bodyline Products because of my technical sales skills.

Organized trade shows for Bodyline Group including, NEC Cosmetic Fair, Frankfurt show.

Operating and maintaining a discipline factory environment with close control of logistical planning.

Close liaison with technical departments of all customers to ensure product quality and safety is paramount.

Develop customer accounts to enable maximum potential for both the customer and the company.

Drive the dynamic creative engine of the company to achieve franchise Bodyline shops in Europe and Oceania.

Increase bottom line profit by efficiently programming in projects and maximizing the workforce to achieve manufacturing wages lower ever before.

Maximize output due to cash flow considerations enabling Bodyline to invest in other project ventures.

Evaluate customer requirements to measure Bodylines to achieve maximum profit margin and to enable projects capability of achieving product goal or sub-contracting to other contacts.

Close liaison with suppliers to accomplish cost saving initiatives to complete within the critical path.

Organizing meetings between departments and collaborating with managers to ensure a smooth project path.

Research & Development Chemist

1999 - 1995 The Bodyline Group Plc, Paignton, Devon. TQ4 7QZ.

Formulated a more comprehensive range of products to promote the Bodyline range within the cost parameters and our animal testing declaration (1985).

Achieved suspensions for sophisticated skin care and innovative designs.

Produced varied emulsified systems according to customer requirements and production facilities.

Introduced new systems into the Research & Development arena to achieve high standards in conjunction with EEC directives on stability and safety of products.

Researched into most commercially used preservatives within cosmetic sector according to product, cost and customers needs.

Initiate point of sale and manufacturing information for customers on recommended applications and benefits of product.

Oversee Quality Assurance to answer customer enquiries and required contingency measures.

Evaluation of all additives in product to achieve maximum stability and safety, to prolong shelf-life.

Zeneca Environmental Laboratory, Brixham, Devon.

Work Experience in Vertebrae Laboratory monitoring temperature, pH and other environmental parameters.

Technical Manager

2010-2012 LF Beauty

To manage the team to ensure products are developed to specified standards to meet customer and company requirements ensuring that all relevant technical standards are applied.

Lead the R&D team and ensure close working relationships between R&D and key internal departments: NPD,

Process, Commercial, Purchasing

Manage workload to ensure product developments are in line with critical paths.

Member of the Royal Society Of Chemistry and a "Chartered"

IFRA CONFORMITY CERTIFICATE FOR INGREDIENTS

Product: Generic of Good Girl by Carolina Herrera

We certify that the above compound is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA - 51th Amendment / published June, 2023), provided it is used in the following category(ies) at a maximum concentration level of:

IFRA category(ies)	Maximum level of use (%)
Category 1*	0
Category 2	3.9286
Category 3	4.9444
Category 4	75.0000
Category 5.A	18.9286
Category 5.B	6.1111
Category 5.C	8.8889
Category 5.D	1.9444
Category 6*	0
Category 7.A	10.0000
Category 7.B	10.0000
Category 8	1.9444
Category 9	22.0588
Category 10.A	22.0588
Category 10.B	88.8889
Category 11.A	1.9444
Category 11.B	1.9444
Category 12	100.0000

* Due to the possible ingestion of small amounts of fragrance ingredients from their use in products in Categories 1 and 6, materials must not only comply with IFRA Standards but must also be recognized as safe as a flavoring ingredient as defined by the IOFI Code of Practice (www.iofi.org). For more details see chapter 1 of the Guidance for the use of IFRA Standards.

For other kinds of application or use at higher concentration levels, a new evaluation may be needed; please contact Moellhausen S.p.A.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if need be.

The information contained herein represents the extent of suppliers and/or Moellhausen S.p.A.'s understanding of the art and does not constitute an intimation or warranty of the product's fitness for any particular purpose and do not replace an analytical determination on the material. The product referred herein is sold on the basis of its compliance with relative and current specifications and on condition that the user performs its own necessary controls and tests to verify the product's fitness for the intended use.

Moellhausen S.p.A. reserves the right to modify product specifications whenever it deems fit and without notice to purchasers/users.

It is the duty of the user to ensure that this information is appropriate and complete with respect to the specific use intended or in conformity with legal claim before product usage.

Moellhausen S.p.A. shall not be liable for any irresponsible, improper, or illegal use, direct or indirect, of the information and declarations or of the product represented herein, and Moellhausen S.p.A. shall not be liable for any damage arising from any use in connection therewith.

IFRA standard categories by product type

IFRA category	Product type
Category 1*	Children's toys; lip products of all types (solid and liquid lipsticks, balms, cream or colored, etc).
Category 2	Deodorant and antiperspirant products of all types including any product with intended or reasonably foreseeable use on the axillae or labelled as such (spray, stick, roll-on, under-arm, deo-cologne, etc.); Body sprays (including body mist)..
Category 3	Products applied to the face/body using finger tips; Body and face paint (for children and adults); Eye products of all types (eye shadow, mascara, eyeliner, eye make-up, eye masks, eye pillows, etc.) including eye care and moisturizer; Facial make up and foundation; Facial masks for face and around the eyes; Make-up remover for face and eyes; Wipes or refreshing tissues for face, neck, hands, body; Nose pores strips;.
Category 4	Products related to fine fragrance; Fragranced bracelets; Hydroalcoholic and non-hydroalcoholic fine fragrance of all types (Eau de Toilette, Parfum, Cologne, solid perfume, fragrancing cream, aftershaves of all types, etc.), aftershaves of all types (except creams and balms); Ingredients of perfume kits and fragrance mixtures for cosmetic kits; Scent pads, foil packs; Scent strips for hydroalcoholic products..
Category 5.A	Body lotion products applied to the face/body using hands (palms), primarily leave-on; All powders and talc (excluding baby powders and talc); Body creams, oils, lotions of all types; Foot care products (creams and powders); Insect repellent (intended to be applied to the skin);.
Category 5.B	Face moisturizer products applied to the face/body using hands (palms), primarily leave-on; Facial moisturizers and creams (including care products for beard and mustache); Facial toner;.
Category 5.C	Hand cream products applied to the face/body using hands (palms), primarily leave-on; Hand cream; Hand sanitizers; Nail care products including cuticle creams, nail lacquer remover, etc..
Category 5.D	Baby creams/lotion, baby oil, baby powder and talc;.
Category 6*	Products with oral and lip exposure: Mouthwash, including breath sprays; Toothpaste; Toothpowder, strips, mouthwash tablets.
Category 7.A	Rinse-off hair permanent or other hair chemical treatments (e.g. relaxers), excluding hair dyes: Hair permanent or other hair chemical treatments (rinse-off) (e.g., relaxers), including rinse-off hair dyes;.
Category 7.B	Products applied to the hair with some hand contact (including hair dyes and excluding other rinse off): Hair deodorizer, hair perfume; Hair permanent or other hair chemical treatments (leave-on) (e.g., relaxers), including leave-on hair dyes; Hair sprays of all types (pumps, aerosol sprays, etc.); Hair styling aids non sprays (mousse, gels, leave-on conditioners); Shampoo - Dry (waterless shampoo)..
Category 8	Products with significant ano-genital exposure: Baby wipes; Intimate wipes; Intimate deodorant spray; tampons; Toilet paper (wet)..
Category 9	Products with body and hand exposure, primarily rinse off: All depilatories (including facial) and waxes for mechanical hair removal; Baby wash, bath, shampoo; bar soap; Bath gels, foams, mousses, salts, oils and other products added to bathwater (such as bath bombs); Body washes and shower gels of all types; Cleanser for face (rinse-off); Conditioner (rinse-off); Foot care products (feet are placed in a bath for soaking); Liquid soap; Shampoo of all types; Shampoo for pets; Shaving creams of all types (stick, gels, foams, etc.)..
Category 10.A	Household care products excluding aerosols; Dry cleaning kits (involving manual application on the textile); Fabric softeners of all types excluding fabric softener sheets; Floor wax; Fragranced oil for lamp ring, reed diffusers, pot-pourri, liquid refills for air fresheners (non-cartridge systems), etc.; Hand dishwashing detergent (including concentrates); Hand wash laundry detergent (including concentrates); Hard surface cleaners of all types (bathroom and kitchen cleansers, furniture polish, etc.); Household cleaning products, other types including fabric cleaners, soft surface cleaners, carpet cleaners, furniture polishes sprays and wipes, leather cleaning wipes, stain removers, fabric enhancing sprays, treatment products for textiles (e.g., starch

sprays, fabric treated with fragrances after wash, deodorizers for textiles or fabrics); Ironing water (Odorized distilled water); Laundry pre-treatment of all types (e.g., paste, sprays, sticks); Machine laundry detergents with skin contact (e.g., liquids, powders) including concentrates; Toilet seat wipes;

Category 10.B	Household aerosol/spray products: Aerosol/spray insecticides; Air freshener sprays, manual, including aerosol and pump; Animal sprays – sprays applied to animals of all types;
Category 11.A	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate - phototoxicity is unapplicable: Baby diapers; Feminine hygiene conventional pads, liners, interlabial pads; Incontinence pant, pad; Toilet paper (dry);
Category 11.B	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate - phototoxicity is applicable: Facial masks (paper/protective) e.g., surgical masks not used as medical device; Facial tissue (dry tissue); Fertilizers, solid (pellet or powder); Napkins; paper towels; Pillow spray; Scented socks, gloves; Tights with moisturizers; Wheat bags..
Category 12	Products not intended for skin contact, minimal or insignificant transfer to skin: Air delivery systems; Automated air fresheners and fragrancing of all types (concentrated aerosol with metered doses (range 0.05-0.5mL/spray), plug-ins, closed systems, solid substrate, membrane delivery, electrical, powders, fragrancing sachets, incense, liquid refills (cartridge), air freshening crystals); Candles of all types (including encased); Cat litter; Cell phone cases; Deodorizers/maskers not intended for skin contact (e.g., fabric drying machine deodorizers, carpet powders); Dishwash detergent and deodorizers – for machine wash; Dry cleaning kits (placed in the dryer); Dryer sheets and fabric softener sheets; Fuels; Insecticides (e.g., mosquito coil, paper, electrical, for clothing) excluding aerosols/sprays; Joss sticks or incense sticks; Laundry detergents for machine wash with minimal skin contact (e.g. Liquid tabs, pods); Olfactive board games; Paints; Plastic articles (excluding toys); Rim blocks (Toilet); Scent beads; Scent delivery system (using dry air technology); Scent pack; Scratch and sniff; Shoe polishes; Toilet gel;
